

Volunteers needed to participate in a study on Autism

Autism Spectrum Disorders-Inflammatory Subtype:Biomarker analysis

Harumi Jyonouchi, M.D.

What's it about?

We are doing research to characterize a previously unidentified inflammatory subtype of autism so we can improve autism treatment options.

Who's needed?

- Children (1 to 17 yrs.) and young adults (18 to 30 yrs.) with Autism Spectrum Disorder
- Mainstream, typically developing, healthy individuals (1 to 30 yrs.)

For more information or to find out if your child is eligible, contact:
